

Detector indicator for addressable and non-addressable system applications

Description

681 remote indicators provides visual alarm indication for addressable and non-addressable control and indicating equipment detectors when the detector connected to the remote indicator enters the alarm condition. The indicator is used to identify the detector in alarm and is useful where the detector cannot be easily seen when installed in the building.

681 remote indicators provide fire detection and alarm system designers with an economical product for life safety and property protection applications.

Features

- Attractive design
- Easily seen when in the alarm condition
- Wide operating voltage
- Compatible with 2-wire addressable and non-addressable detectors
- · Easy installation with no adjustments required
- Low maintenance

Compliance

681 remote indicators have CE compliance.

Specifications

	681-001
Operating voltage	DC (5 ~ 36) V
Quiescent current	0 A
Alarm current (max)	20 mA
Input impedance	1.2 kΩ
Terminal wiring	(0.4 ~ 2.5) mm ²
Operating temperature	(-20 ~ +60) °C
Operating humidity	(0 ~ 95) % RH, non-condensing
Storage temperature	(-25 ~ +80) °C
Storage humidity	(0 ~ 98) % RH, non-condensing
Dimensions	Φ 79 mm × 19 mm
